EDUCATION

Fudan University, Master of Computer Science (NLP), 2023 - 2026 (expected)

Fudan University, Bachelor of Computer Science, 2019 - 2023

PUBLICATIONS

- "Improving BERT for Long Document Classification" (ACL 2024 workshop)

- "Cross-lingual Transfer Learning for Low-resource NLP" (EMNLP 2024)

PROJECTS

Thesis: Multi-modal Document Retrieval | 2025

- Tech Stack: PyTorch, Hugging Face, FAISS, LangChain

- Description: Built RAG system with custom embedding model

- Duration: 8 months

Course Project: RecSys Competition | 2024

- Tech Stack: Python, XGBoost, LightGBM

- Description: Top 5% in Tianchi RecSys competition

- Duration: 2 months

SKILLS

Python, PyTorch, Hugging Face, FAISS, LangChain, SQL, basic Java

SELF SUMMARY

MS student graduating 2026, focused on NLP and information retrieval.

Strong in ML fundamentals, limited industry experience.
